

Name: _____ Pd: _____ Date: _____

Alg 5/23/17
6th

Algebra
Final Exam Vocabulary

1. irrational number
2. rational number
3. reciprocal/multiplicative inverse
4. term
5. real number
6. like terms
7. coefficient
8. identity
9. proportion
10. rate
11. unit rate
12. empty set/null set
13. domain
14. range
15. discrete graph
16. function
17. dependent variable
18. independent variable
19. relation
20. nonlinear function
21. line of best fit
22. x-intercept
23. y-intercept
24. slope
25. scatter plot
26. slope-intercept form
27. standard form
28. point-slope form
29. positive, negative, no correlation
30. system of equations
31. monomial
32. polynomial
33. binomial
34. parabola
35. quadratic function
36. Pythagorean Theorem
37. hypotenuse
38. maximum, minimum
39. axis of symmetry
40. arithmetic, geometric sequence
